D.C Bar Association | Washington, D.C. | Program Specialist | *11/2023 – Present*

- **Event Design & Management**: Organized various events (conferences, seminars, workshops, social gatherings, virtual events) for legal professionals, including the D.C. Bar Tax Conference, managing venue arrangement, and schedule planning to align with organizational goals. Ensured events met legal standards and organizational policies, conducted post-event evaluations to gather feedback, analyze data, and recommend future improvements.
- **Marketing & Promotion**: Collaborated with the marketing team to promote events through social media, craft newsletters, and other marketing materials targeting Bar members and government officials, increasing event attendance by 25%.
- **Community Management**: Lead the ideation, strategy, and execution of community initiatives across various legal verticals
- **Stakeholder Communication**: Maintained regular communication with Executive leadership, Bar members, sponsors, speakers, Federal and D.C. officials, and vendors to ensure seamless event execution.
- **A.I App Research & Development:** Project managed the development of an AI-powered Lawyer Referral Service, integrating AWS API, Lambda, EventBridge, OpenAI API, and AstraDB for efficient data handling and search capabilities. Attained the distinguished 2025 D.C. Bar AI Innovation award for contributions department wide AI solution development.

Polygon Labs | Remote | Global Events Lead | 02/2022 – 02/2023

- **Global Event Planning & Management**: Led planning and execution of large-scale global events (notably in N.Y.C and San Francisco), aligning with Polygon's core values, managing budgets ($500K-$3M), and ensuring high-quality attendee experiences for global multi-day conferences with 5,000+ attendees, achieving a 30% increase in attendee satisfaction.
- **Cross-functional Collaboration & Brand Awareness**: Fostered collaboration with sales and product teams to drive company goals and brand awareness and served as on-site social media manager and Master of Ceremony for virtual events.
- **Data-Driven Event Strategy**: Utilized event data and analytics to inform decisions and optimize future strategies, developing KPIs for continuous improvement and ensuring alignment with business objectives.
- **Innovative Engagement & Networking**: Managed global community swag distribution and exclusive digital collectible drops to enhance engagement and cultivated a strong global network within the Web3 industry for successful collaborations.

Hines/Amazon | Arlington, VA | Assistant Events Program Manager | 01/2020 – 12/2021

- **Event Program Management**: Spearheaded the launch of the Global Real Estate and Facilities (GREF) events program at Amazon's second HQ and 26 additional sites, managing a $4M budget, reporting KPIs, and overseeing all AMER-MID sites, improving operational efficiency by 15%.
- **Vendor Supervision & Training**: Trained and supervised subcontracted vendors, supported

regional/international event program expansion, and hosted national open house events, ensuring effective communication with key stakeholders.

- **Venue Management & Campaign Performance**: Oversaw venue management mapping, secured event spaces, implemented workflows, and developed campaign performance metrics and measurement plans for forecasting program outcomes.
- **Team Building & Employee Engagement**: Built and managed events and labor teams, ensuring efficient inventory management and event success, while designing and implementing Global employee engagement events and activation campaigns.

Amazon Vaccination Clinic |Arlington, VA | Clinic Operations Lead | 03/2021 – 06/2021

- **Site Operations Management:** Led the setup and daily operations of a vaccination site serving 25,000 people over three months, collaborating with Arlington County, VA Department of Health, and other stakeholders to strategize site setup and logistics.
- **Team Leadership & Supervision:** Hired and supervised a team of 15 members, ensuring smooth operations and quality control procedures.
- **Digital Planning & Equipment Management:** Created digital floor plans and managed equipment procurement to ensure efficient site functionality.
- **Financial Oversight & Profitability:** Studied financial reports and implemented strategies to minimize operation costs by 10%.

Want Moor Events | Remote | Owner/Freelancer | 05/2015 – 09/2020

- **Digital Trends & Web Analytics**: Evaluated digital trends using web analytic tools, created ad copy, designed social media posts, and optimized messaging for various platforms.
- **Web Design & Email Marketing**: Designed WordPress, and AI crafted websites, email marketing campaigns, and landing pages, implementing plugins for responsive design and managing ongoing personalization.
- **Customer Requirements & Test Strategies**: Gathered customer requirements, introduced new test strategies to increase website traffic, and provided continuous personalization.
- **Event Planning & Photography**: Planned and managed logistics for brand marketing events across multiple industries, structured photography productions from concept to completion, capturing high-end images for various purposes.

Brand Activation Services | Remote | Event Manager | *05/2013 - 11/2019*

- **End-to-End Event Logistics**: Managed logistics for trade shows, private V.I.P., and corporate events, overseeing setup, signage, vendor relations, and post-event recap.
- **Staffing & On-Site Management**: Led staffing procurement and on-site management for events featuring high-profile political and celebrity guests.
- **Brand Activations & Custom Experiences**: Partnered with field marketing teams to plan and create customized brand activations and unique event experiences.
- **Vendor Relations & Post-Event Analysis**: Managed vendor relations and conducted post-event analyses to ensure continuous improvement and successful future events.

Leadership Greater Washington | Washington, D.C. | Online Community Manager| *12/2013 - 08/2014*

- **Marketing Strategy & Community Management**: Planned and executed marketing strategies, managed community forums, and updated knowledge bases to enhance user engagement, increasing community engagement by 40%.
- **Content Creation & Copyediting**: Copyedited blog posts and monthly newsletters, using content management solutions to design and optimize user experience (UX) across platforms.
- **Social Media Optimization & Engagement**: Modified content for various platforms to improve social presence, partnered with brand colleagues to maintain engagement and loyalty.
- **Performance Analysis & Reputation Management**: Analyzed reach using social media management tools, distributed web articles, evaluated performance against metrics, and managed brand reputation by endorsing positive feedback across channels.

Education

- **Old Dominion University:** Bachelor of Science- Sports Management; Marketing Minor
- **P.M.I Project Management Professional:** (PMP) Certification
- **AWS Certified Developer Associate**
- **University of Michigan:** Web Design Certification
